### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Laurence (reg. no. 63,383) on 2/1/10. On 1/26/10, the examiner contacted Mr. Laurence concerning some proposed examiner's amendment to overcome some minor informalities in the claims seen below and to alleviate a possible 101 issue with respect to claim 1 and its dependent claims. Mr. Laurence obtained the client's permission and notified the examiner on 2/1/10 that the proposed amendments are approved. As per MPEP 713.04, a separate interview summary form is not provided as the substance of the interview is summarized herein.

The application has been amended as follows:

#### AMEND THE FOLLOWING CLAIMS AS FOLLOWS:

1. (currently amended) An image processing apparatus comprising:

a CPU including a controller and a memory controller,

[[a]] wherein the controller [[that]] alters a first image file stored in a removable storage medium to generate a second image file[[:]], and

~~a memory controller that stores the second image file in the storage medium,~~

wherein the memory controller ~~(a) controls the memory controller to store~~ the second image file in the removable storage medium without deleting the first image file from the removable storage medium[[,]] if the first image file includes authentication data that is used to authenticate whether the first image file has been altered, and ~~(b)~~ the controller inquires whether to overwrite the second image file on the first image file stored in the removable storage medium[[,]] if the first image file does not include the authentication data.

9. (currently amended) A method of controlling an image processing apparatus, comprising:

an alteration step of altering a first image file stored in a removable storage medium to generate a second image file;

a step of ~~controlling a memory controller of the image processing apparatus to store~~ storing the second image file in the removable storage medium without deleting the first image file from the removable storage medium[[,]] if the first image file includes authentication data that is used to authenticate whether the first image file has been altered; and

a step of inquiring whether to overwrite the second image file on the first image file stored in the removable storage medium[[,]] if the first image file does not include the authentication data.

17. (currently amended) A recording medium storing a computer program for realizing, by a computer, the method according to claim 9.

The following is an examiner's statement of reasons for allowance: The prior art does not teach the combination of limitations as seen above in claims 1 and 9. The remaining claims are allowed over the prior art due to dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ponnoreay Pich whose telephone number is (571) 272-7962. The examiner can normally be reached on 9:00am-4:30pm Mon-Thurs.
